(\$ Beurer CareCam App for Windows 10+ Handwriting input: draw and search for unknown characters with the best-in-class recognition engine. (basic version free, improved version \$) Live Optical Character Recognizer (OCR): just search for Chinese words in the dictionary by pointing your device's camera at them or swiping around a still image. (\$ Narrator/OCR: instantly tap and look at Chinese words in other apps via a floating interface. Works on Android 4.1 and later. (reader free, OCR \$) Flashcard System: create a card from any dictionary entry with a single button touch, import pre-prepared word lists, use advanced techniques such as SRS (intermittent re-read) and training in a variety of modes such as spaces and tone exercises. (simple version free, full feature \$) Voice Pronunciation: hear male + women instantly audio for Chinese dictionary titles; Available records for more than 34,000 words. (stitched sym symly free, very sy symly \$) Or listen to sample sentences that search for words with text-to-speech (system TTS free, improved \$) Strong search: Chinese characters, Pinyin (depending on space/tone) or together, wildcard characters and full-text search support. Cross-reference: tap any Chinese character/word to bring definition in any dictionary entry. Stroke Order Diagrams: animations show how to draw characters in every Chinese language, 500 free apps, 28,000 paid plugins. • Voice Recognition: search for words by talking to your device's microphone. • Document Reader: Open a Chinese text or PDF file and just tap to see the unknown words in the dictionary. (\$ You can also get characters from webpages through Share and characters from other documents through the clipboard. (free) PRC- and Taiwan-friendly: supports traditional and simplified characters (in dictionary definitions, in stroke order, search, OCR and handwriting) and supports Zhuyin (with ruby support) and Pinyin for pronunciation screen. • Search canton: screen titles + Jyutping/Yale romanization. We also offer Canton dictionary and Canton audio plugins. (some \$) Amcrest Link for 960H DVR App for Windows 10+ No ads: the plugin won't even need you when it comes to buying. We also offer excellent customer support - send us an email and see for yourself - and plecofotuns is an active user toplulu.com.Biz we have been doing Chinese dictionary applications since 2000, and sales and customer base have been constantly growing for 17 years on four different platforms. We have been taking good care of our users for a long time: people who purchased a dictionary from Palm Pilot in 2001 can continue to use this dictionary on a new Android phone in 2017 without even paying an upgrade fee. Paid add-ons can be moved to a new device like other paid apps; Open our free app on your new device and they need to reactivate it. If you already have Pleco on another operating system, see the pleco.com/android options. This application uses Accessibility services. (For our Narrator feature, which helps users get by in Chinese-speaking regions without knowing Chinese) Twitter/Facebook: plecosoft More bug fixes. This will probably be the latest version of Pleco to support Android 4.0; Google has dropped support for it in the latest versions of Android NDK and Play Services, and therefore it is becoming increasingly difficult for us to continue supporting it in our app. However, you still need to download the latest compatible version of Android 4.0 Pleco indefinitely.
